

21 YEARS SPECIALIST IN BATTERY OPERATED AMUSEMENT RIDE

Guangzhou Huaqin Playground Machines Co.,Ltd

<https://amusement-machines.com>

Guangzhou Huaqin Playground Equipment Co.,Ltd was founded in 2003, is located in the world's largest amusement, recreation production base -- Panyu district,Guangzhou City. We focus on design, production,sales and after sales service of the recreation equipment for 18 years .Products are all kinds of indoor and outdoor amusement machines and playground equipment. for example,9D VR Cinema, riding robot walker, Happy car,motorcycle ride,drift car, bumper cars ,carousel,track train, arcade game machine. After 16 years struggle, more than 30 design patents make us be ahead in amusement machine industry.

Since the set-up of the company, We care much on international advanced management concepts and standards system certification, Now we owns ISO2008 quality system certification, CE certification. And we are members of IAAPA ,IAAPI. "Professional, dedicated, continuous innovation" is the core competitiveness of the company for many years,Nowadays, the science and technology is developing highly and fast, the company has always been sticking to "health, safety" development is the first priority, Hua Qin products are sold throughout the worldwide market and China domestic market. We are attending more than 5 trade fairs every year to talk and meet with our client.Welcome to visit our factory showroom and production base at Anytime!

Our Commercial Playground Design

<https://amusement-machines.com>

The Children's Driving School-themed Parent-Child Amusement Park offers a streamlined business model and efficient, hassle-free management.

With eco-friendly and safety-certified equipment, it delivers both fun and educational value—making it a standout project that continues to attract strong interest and enthusiastic investment.

Our Commercial Playground Design

Bumper Cars — An Irresistible Classic in Amusement Rides

HuaQin Amusement offers professional bumper car solutions with expert operational guidance and tailored venue planning services, making setup simple and efficient.

Our inflatable bumper cars use air tracks and require no ceiling or floor power grid, significantly reducing construction costs while ensuring safety and flexibility. They are ideal for locations like plazas, shopping centers, parks, amusement parks, and other flat open spaces.

The spaceship-style battery bumper car is easy to operate, highly responsive, and capable of 360-degree rotation with joystick control. Whether it's kids or adults, everyone enjoys the fun and excitement it brings.

Walking Robots Series

Aviark Warrior

How to operate

- Push both joysticks forward/backward at meantime,machine will go forward/backward.
- 1 joystick forward,1 joystick backward pushing will cause direction turning or 360 degree rotating without losing hand pushing.
- The robot can also walk while blowing bubbles.
- There is a cabin door lift button next to each joystick.

Product Parameter

- Size:165*213*213cm
- Battery:12V/45A*4PCS
- Working time:5-6H
- Charging time: 8-9H
- Net weight:248KG
- Bearing weight:100kg
- Player: 2 players
- Speed: 3km/h
- Power:24V/450W*2
- Radar systems to protect players

Walking Robot II

How to operate

- Push both joysticks forward/backward at meantime,machine will go forward/backward.
- 1 joystick forward,1 joystick backward pushing will cause direction turning or 360 degree rotating without losing hand pushing.

Product Parameter

- Size:134*133*240cm
- Battery:12V/45A*4PCS
- Working time:5-6H
- Charging time: 8-9H
- Net weight:250KG
- Bearing weight:115kg
- Player:2
- Speed:4.2km/h(high),
3.6km/h(mid),2.4km/h(low)
- Power:230W
- Radar systems to protect players

Future Warrior

Product Parameter

- Size: 141*183*252 cm
- Battery: 12V/45A*4PCS
- Working time: 5-6 Hours
- Net weight: 284 kgs
- Bearing weight: 100 kgs
- Player: 2 players
- Speed: 4km/h(high), 3.5km/h (mid), 3km/h(low)
- Power: 450WConfiguration: Remote Control To Start / Bookkeeping Function / Background Settings / Radar Anti-Collision / Front Anti-Collision Rolling Plastic Bar Protection

Features

1. Unique design in the market with patent
2. Totally 4 radar sensors for safety protection
3. Safety belt with sensors, if safety belt is not buckled on, machine will not move.

How to operate

- Push both joysticks forward/backward at meantime, machine will go forward/backward.
- 1 joystick forward, 1 joystick backward pushing will cause direction turning or 360 degree rotating without losing hand pushing.

Walking Robot I

Product Feature

- Unique design in the market with patent.
- Totally 7 radar sensors for safety protection.
- Demo mode is for attracting potential players by playing music and shining light.
- Safety belt with sensors, if safety belt is not buckled on, machine will not move.

Product Parameter

- Size: 163*125*235 cm
- Battery: 12V/45A * 2PCS
- Working time: 4 Hours
- Charging time: 8-10 Hours
- Net weight: 200 kgs
- Bearing weight: 115 kgs
- Player: 2 players
- Speed: 4.2km/h(high), 3.6km/h(mid), 2.4km/h(low)
- Power: 500 W

How to operate

1. Push both joysticks forward/backward at meantime, machine will go forward/backward.
2. 1 joystick forward, 1 joystick backward pushing will cause direction turning or 360 degree rotating without losing hand pushing.

Thunder Hammer Robot

Product Parameter

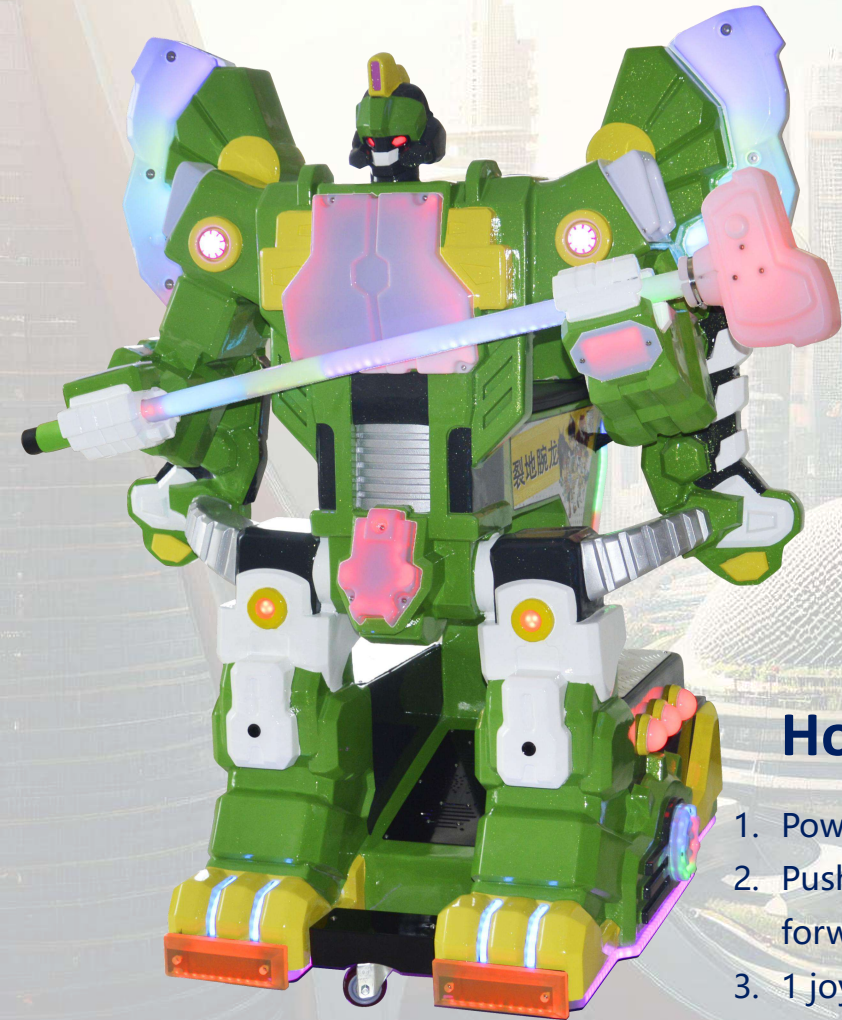

- Size: 128*112*164 cm
- Battery: 12V/45AH * 2PCS
- Working time: 4-5 Hours
- Charging time: 8-10 Hours
- Net weight: 160 kgs
- Bearing weight: 120 kgs
- Player: 1 players
- Speed: 4km/h(high), 3.5km/h (mid)
2.5km/h(low)
- Power: 900 W
- Radar systems to protect players

How to operate

1. Power on the robot and start by remote control.
2. Push both joysticks forward/backward at meantime,machine will go forward/backward.
3. 1 joystick forward,1 joystick backward, machine will turn or 360 degree rotating if keeping pushing.
4. Forward/Back switch button for easy backward riding.
5. Music in the whole playing. Voice reminder one minute before the end of the play.
6. Shooting sound effect when press the button on the joystick. Machine stops when obstacles within 0.5 meters.

Product Feature

1. Reinforced fiberglass material with gold and silver power.
2. Dazzling light and dynamic sound.
3. Front and rear radar, plastic bumper on the bottom for anti-collision.
4. Big space seat for parent-kid fun, ticket price is 2x of 1 seat price.
5. Soft leather seat for comfort sitting.
6. Background setting and account tracking.

Kiddie Armored Robot

Product Feature

1. Unique triangle design
2. 4 sensitive radar sensors for safety protection by order request
3. Standby mode, machine will rotate by itself and shining light,music is playing to attract players.
4. Colorful shining light joystick for kid funny riding.

How to operate

1. Push both joysticks forward/backward at meantime,machine will go forward/backward.
2. 1 joystick forward,1 joystick backward pushing will cause direction turning or 360 degree rotating without losing hand

Product Parameter

- Size: 100*67*120cm
- Battery: 12V/12A * 2PCS
- Working time: 6-8 Hours
- Charging time: 8-10 Hours
- Net weight: 53 kgs
- Bearing weight:50 kgs
- Player:1 players
- Speed: 3km/h(high), 2.5km/h (mid), 2km/h(low)
- Power: 240W
- sensor protection is available upon request

Happy Cars Series

Le Bar Car II

Product Parameter

- Size: 189*158*149.3cm
- Battery: 12V/45AH*4PCS
- Working time: 6-8H
- Charging time: 10-12H
- Net weight: 270kg
- Bearing weight: 150kg
- Player: 2 palyers
- Speed: $\leq 3.5\text{km/h}$ (high)
- Power: 500W
- Radar systems to protect players

How to operate

- Push joysticks forward/backward at meantime,machine will go forward/backward.
- By controlling the stick in the same direction all the time, you can rotate 360 degrees in place. When it suddenly stops, it can rock back and forth 180 degrees to stimulate the experience.

360 Rolling Car

Product Parameter

- Size: 175*140*140 cm
- Battery: 48V/20A * 1PCS
- Working time: 6-8 Hours
- Charging time: 10-12 Hours
- Net weight: 150 kgs
- Bearing weight: <200 kgs
- Player: 2 players
- Speed: 4km/h
- Power: 300 WMaterial: Acrylic, stainless steel, hardware, PC , ABS and fibreglass

How to operate

1. Power on your machine, start by remote control, fasten the seat belt, operate the rocker, rocker forward, then the machine moves forward, you can operate the joystick 360 degrees, then the machine is also rotated 360 degrees.
2. It is recommended to play 5 minutes each time.

Product Feature

1. Low investment-High return.
2. 360 degrees before and after rolling and in-situ rotation, balance inverted.
3. Light music: LED colorful light and dynamic music.
4. Suitable for large shopping malls, game halls, amusement park, game center and indoor playground.
5. Professional guidance and technical support are provided.

Le Bar Car I

Product Parameter

- Power: 300W
- Player: 2 Players
- Net weight: 150 kgs
- Bear weight: 230 kgs
- Battery: 12V/45A*2PCS
- Size: 170*153*154cm
- Working time: 7-8 hours
- Charging time: 10 -12 hours
- Speed: 3.6 km/h, 3 km/h, 2.4 km/h

How to operate

1. Operating joystick to move the machine.
2. Radar sensors help to detect obstacle within 0.5 meter.
3. Stop pushing joystick ,the machine swings.

Product Feature

1. Unique Yoyo swing car design.
2. Total 10 pairs of sensor for safety protection.
3. Default setting with demo mode to help attracting potential players.
4. Big durable wheels, fit for many kinds of playground like grassland, both indoor and outdoor.

Bumper Cars Series

Shadow Speed Bumper Car

Product Parameter

- Size:190.8*111.9*95.8cm
- Battery:12V/70AH*2pcs
- Working time:4-5H
- Charging time:10-11H
- Net weight:240kg
- Bearing weight:150kg
- Player:2
- Speed:≤7km/h
- Power:230W

How to operate

- The simulated square disk rotates left and right to control the direction and can drift.
- One pedal controls the accelerator and one pedal controls the brake of the bumper car.
- The control panel can adjust the speed of the bumper car, music volume and other data.

Parent-kid Bumper Car

How to operate

- The simulated square disk rotates left and right to control the direction and can drift.
- One pedal controls the accelerator and one pedal controls the brake of the bumper car.
- The control panel can adjust the speed of the bumper car, music volume and other data.

Product Parameter

- Size:190*120*95cm
- Battery:12V/45AH*2pcs
- Working time:4-5H
- Charging time:10-11H
- Net weight:140kg
- Bearing weight:150kg
- Player:2
- Speed:5-8km/h
- Power:230W

Ladybug Bumper Car

Product Parameter

- Size: 175*175*120 cm
- Battery: 12V/45A * 2PCS
- Working time: 4-5Hours
- Charging time: 10-11Hours
- Net weight: 180kg
- Bearing weight: 150kg
- Player: 2 players
- Speed: 7km/h(high), 5km/h (mid)
- Power: 450 W

How to operate

1. By operating steering wheels, the machine will go any direction.
2. Push both joysticks forward/backward at meantime, machine go forward/backward.
3. 1 joystick forward, 1 joystick backward pushing will cause direction turning or 360 degree rotating without losing hand pushing.
4. Urgent brake, please push joystick to opposite moving direction.

Product Feature

1. Unique patented design. Fiberglass shell with car painting, silver and gold powder creates surface brilliant color.
2. More attractive.
3. Dashing experience is exciting and safe because of the durable air cushion.
4. 2 layers inflatable rubber. More durable, more comfortable feeling of interactive collision.
5. Demo mode for easy attracting players by playing music and automatic rotating.

Spaceship Bumper Car I

How to operate

1. Push both joysticks forward/backward at meantime, machine go forward/backward.
2. 1 joystick forward, 1 joystick backward pushing will cause direction turning or 360 degree rotating without loosing hand pushing.
3. Urgent brake, please push joystick to opposite moving direction.

Product Feature

1. Unique patented design.
2. Dashing experience is exciting and safe because of the durable air cushion.
3. Demo mode for easy attracting players by playing music and automatic rotating.
4. Stable movement, sensitive joystick for fun.

Product Parameter

- Size: 175*175*120 cm
- Battery: 12V/45AH * 2pcs
- Working time: 5-6 Hours
- Charging time: 10-12 Hours
- Net weight: 180 kgs
- Bearing weight: 150 kgs
- Player: 1 players
- Speed: 5.4km/H, 6.5km/H
- Power: 500W

Spaceship Bumper Car II

Kid bumper car

- Size: 135*135*100cm
- Battery: 12V/45AH*2pcs
- Working time: 4-5 Hours
- Charging time: 8-12 Hours
- Net weight: 80 kgs
- Bearing weight: 100 kgs
- Player: 2 players
- Speed: 5km/H, 6km/H
- Power: 500 W

Adult bumper car

- Size: 175*175*120 cm
- Battery: 12V/70A * 2PCS
- Working time: 5-6 Hours
- Charging time: 10-12 Hours
- Net weight: 180 kgs
- Bearing weight: 150 kgs
- Player: 2 players
- Speed: 5.4km/H, 6.5km/H
- Power: 500 W

How to operate

1. Push both joysticks forward/backward at meantime, machine go forward/backward.
2. 1 joystick forward, 1 joystick backward pushing will cause direction turning or 360 degree rotating without losing hand pushing.
3. Urgent brake, please push joystick to opposite moving direction.

Product Feature

1. Unique patented design.
2. Dashing experience is exciting and safe because of the durable air cushion.
3. Demo mode for easy attracting players by playing music and automatic rotating.
4. Stable movement, sensitive joystick for fun.

Motorboat Ride I (Dodgem)

How to operate

1. Steering wheel for direction turning.
2. Turn the right handle accelerator to extreme extend generate highest speed, loosen accelerator to stop moving, left handle is brake.
3. Front/back button for easy backward riding.
4. 2 mirrors for backward riding support.

Product Parameter

- Size: 187*122*90cm
- Battery: 12V/45A * 2PCS
- Working time: 6 Hours
- Charging time: 8-10 Hours
- Net weight: 200 kgs
- Bearing weight: 150 kgs
- Player: 2 players
- Speed: 8km/h
- Power: 350 W

Product Feature

1. Unique patented design.
2. Dashing experience is exciting and safe because of the durable air cushion.
3. Demo mode for easy attracting players by playing music and automatic rotating.
4. Stable movement, sensitive joystick for fun.

Motorcycles Ride Series

Outrider motorcycle (with blowing bubble function)

How to operate

1. This product is easy to operate and supports remote start with music and sound effects throughout the ride. The parent-child / couple / friend seating design enhances interactive experiences, with flashing lights making the ride both fun and safe.
2. Passengers control forward, backward, and turning movements through the steering wheel. When the throttle is released, the motorcycle automatically brakes and stops. It also features obstacle detection within 0.5 meters to ensure safety.
3. The co-pilot seat simulates a mini airplane with sound effects. The right-hand button activates a bubble-spraying effect, while the left-hand button produces shooting sound effects for extra fun.

Product Parameter

- Size: 170*98*100cm
- Battery: 12V/32A*2PCS
- Working time: 6-7H
- Charging time: 8-10H
- Net weight: 110kg
- Bearing weight: 150kg
- Player: 2 players
- Speed: $\leq 7\text{km/h}$
- Power: 500W

Product Feature

1. Unique patented design.
2. 2 players seats offer family funny riding experience.
3. Shining light, shocking riding sound effect.
4. Stable movement, sensitive direction turning.

Parent-kids Motorbike III (with blowing bubble function)

Product Parameter

- Size: 176*140*100cm
- Battery: 12V/32A*4PCS
- Working time: 7-8Hours
- Charging time: 8-10Hours
- Net weight: 140kg
- Bearing weight: 150kg
- Player: 2 players
- Speed: 7km/h(high), 5km/h(mid), 3km/h(low)
- Power: 500W

How to operate

1. Turn the handlebars and start the motorcycle. There are buttons to adjust the speed of the motorcycle, as well as the direction of the motorcycle forward and backward.
2. The control panel can adjust the music sound and other operations, and the display screen displays game time, music volume and other machine information.

Product Feature

1. Unique patented design.
2. 3 players seats offer family funny riding experience.
3. Shining light,shocking riding sound effect.
4. Stable movement,sensitive direction turning.

Parent-kids Motorbike III (with blowing bubble function)

Dazzling Motorcycle Ride

How to operate

Remote control to start machine, right handle accelerator to move machine, left handle brake to stop.

Product Feature

1. Exquisite shape is similar to motorcycle, the right handle is whistling handle, it will have simulating sound like car when drive the motorcycle, it will have "wu wu" driving sound.
2. The front and rear wheels are anti-collision, more durable plus the stronger Aluminum pedals on the car for people up&down, it will protect the paint of the motor and prevent slipping.

Product Parameter

- Size: 138*80*89cm
- Battery: 12V/45A*2PCS
- Working time: 8-10H
- Charging time: 10-12H
- Net weight: 80kg
- Bearing weight: 100kg
- Player: 2 players
- Speed: 5km/h (high), 3.8km/h (mid), 2.5km/h (low)
- Power: 350W
- Radar systems to protect players

Prince Motor

Product Parameter

- Size: 140*50*62 cm
- Battery: 12V/20A * 2PCS
- Working time: 6-7 Hours
- Charging time: 8-10 Hours
- Net weight: 60 kgs
- Bearing weight: 125 kgs
- Player: 2 players
- Speed: 6.5km/h(high), 5km/h (mid), 3.5km/h(low)
- Power: 250W
- Radar systems to protect players

Product Feature

1. Unique patented design.
2. Colorful waterflow lamp to attract player.
3. Sensitive operating parts for easy riding.
4. Stable and durable quality.
5. Most popular and high profit amusement ride.

How to operate

1. Remote control or coin operating system to start machine, right handle accelerator to move machine, left handle brake to stop.
2. Right handle has horn button for alarm.
3. Sensors is available upon order request to help stopping machine.

Transparent Prince Motor

- Excellent light transmission.
- Transparent rotational moulding material.
- Help attract more kids to your amusement business.

Parent-kids Motorbike (with alarm lamp)

Product Parameter

- Size: 185*113*85cm
- Battery: 12V/45A*2PCS
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 130 kg
- Bearing weight: 125 kg
- Player: 2 players
- Speed: 7km/h(high), 5km/h(mid), 3km/h(low)
- Power: 450W
- Radar systems to protect players

How to operate

1. Turn the handlebars and start the motorcycle. There are buttons to adjust the speed of the motorcycle, as well as the direction of the motorcycle forward and backward.
2. The control panel can adjust the music sound and other operations, and the display screen displays game time, music volume and other machine information.

Product Feature

1. Unique patented design.
2. 1 Adult+1 kid seat offer family funny riding experience.
3. Shining light,shocking riding sound effect.
4. Stable movement,sensitive direction turning.

Parent-kids Motorcycle

Product Parameter

- Size: 185*113*85cm
- Battery: 12V/45A*2PCS
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 130 kg
- Bearing weight: 125 kg
- Player: 2 players
- Speed: 7km/h(high), 5km/h(mid), 3km/h(low)
- Power: 450W
- Radar systems to protect players

How to operate

1. Foot accelerator to move machine, left foot pedal is brake.
2. There is speed adjustment button and music adjustment on screen control panel.

Product Feature

1. Unique patented design.
2. 1 Adult+1 kid seat offer family funny riding experience.
3. Shining light, shocking riding sound effect.
4. Stable movement, sensitive direction turning.

Harli Motorcycle

Product Parameter

- Size: 150*51*70 cm
- Battery: 12V/38A * 2PCS
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 74 kgs
- Bearing weight: 100 kgs
- Player: 2 players
- Speed: $\leq 5\text{km/h}$
- Power: 250 W
- Radar systems to protect players

How to operate

1. Foot accelerator to move machine, left foot pedal is brake.
2. There is speed adjustment button and music adjustment on screen control panel.

Product Feature

1. Unique harli design.
2. Fit for 1 adult+1 kid both players riding.
3. shocking music, shining waterflow light.
4. stable movement with caster wheels at front left and right side.

Playground Kid Cars

Motorboat Ride II (with blowing bubble function)

How to operate

1. Turn the handlebars and start the motorboat. There are buttons to adjust the speed of the motorboat, as well as the direction of the motorboat forward and backward.
2. The control panel can adjust the music sound and other operations, and the display screen displays game time, music volume and other machine information.

Product Parameter

- Size: 180*100*90cm
- Battery:12V/45A*2PCS
- Working time:7-8H
- Charging time: 8-10H
- Net weight:107kg
- Bearing weight:150kg
- Player:2
- Speed:7km/h(high)/5km/h (mid)/3km/h(low)
- Power:350W
- Radar systems to protect players

Thunder Racer Car

Product Parameter

- Size: 182.6*108.9*107cm
- Battery: 12V/45A*2PCS
- Working time: 5-6H
- Net weight: 145KG
- Bearing weight: 150kg
- Player: 2
- Speed: $\leq 7\text{km/h}$
- Power: 500W
- Configuration: remote start / bookkeeping function / background settings / radar anti-collision

Product Feature

1. The patented product is unique, color coordinated with the light.
2. The shocking stereo surround sound and dazzling LED running horse flashing lights are more attractive to children's eyes.
3. Flexible operation, simple, convenient, free control of the direction, release the throttle automatic brake response in a timely manner.
4. Stable performance, smooth operation, start without jitter and slow state, safe and reliable.
5. Double seat design, high-strength glass fiber reinforced plastic body.
6. Four anti-collision light-emitting wheels
7. Large factory production process, strict quality management system, and quality assurance.

Universe Airship Ride

(with blowing bubble function)

The inspiration design of this amusement ride equipment comes from the imagination of mysterious aliens, combined with the appearance of bluebottle, to design a cool Universe Airship with a one-eyed gradient.

The two antennae on the roof of the car represent the signs of communication between the higher unknown beings beyond the universe.

Product Parameter

- Size: L1850*W1200*H1530mm
- Material: Hardware + FRP
- Battery: DC12V45A * 2PCS
- Working time: 4-6 hours
- Speed: $\leq 7\text{km/h}$
- Configuration: Remote Control To Start / Bookkeeping Function / Background Settings / Radar Anti-Collision / Automatic demonstration function / Sound

X-Speed Racer

Product Parameter

- Size: L1880*W1420*H1570mm
- Net Weight: 140 kgs
- Bear Weight: 110 kgs
- Motor Wheel: 24V/450W
- Material: Hardware + FRP
- Battery: DC12V45A * 2PCS
- Working time: 5-6 hours
- Speed: $\leq 7\text{km/h}$
- Configuration: Remote Control To Start / Bookkeeping Function / Background Settings / Radar Anti-Collision / Automatic demonstration function / Sound

Future Overrun

Product Parameter

- Size: L1760 * W1120 * H690mm
- Speed: 7km / h (high), 5km / h (middle), 3km / h (low)
- Motor wheel: 24V \ 450W
- Battery: 12V/45A * 2 PCS
- Working time: 5-6 hours
- Player: 1-2 people
- Configuration: remote start / bookkeeping function / background settings / radar anti-collision

Product Feature

1. The patented product is unique, color coordinated with the light.
2. The shocking stereo surround sound and dazzling LED running horse flashing lights are more attractive to children's eyes.
3. Flexible operation, simple, convenient, free control of the direction, release the throttle automatic brake response in a timely manner.
4. Stable performance, smooth operation, start without jitter and slow state, safe and reliable.
5. Double seat design, high-strength glass fiber reinforced plastic body.
6. Four anti-collision light-emitting wheels
7. Large factory production process, strict quality management system, and quality assurance.

Drift Car

Product Feature

1. Unique drift design.
2. Powerful motor to enhance drift experience.
3. Speed/music is easily adjusted on display screen panel.
4. Front/back switch button for easy backward driving.

Product Parameter

- Size: 112*107*70 cm
- Battery: 12V/20AH * 2pcs
- Working time: 5-6 Hours
- Charging time: 6-8 Hours
- Net weight: 72 kgs
- Bearing weight: 80 kgs
- Player: 1 player
- Speed: 6km/h(high), 5km/h (mid), 3km/h(low)
- Power: 250 W

How to operate

Fasten safety belt first, stepping on foot accelerator pedal to move the machine, steering wheel to control direction, loosen accelerator and step on brake quickly to create drift racing experience.

Adult Beach Buggy

Product Parameter

- Size: 152*99*101 cm
- Working time: 5-6 hours
- Charging time: 8-12 hours
- Battery: DC12V/40AH * 4pcs
- Power: 750 W
- Speed: 7km/h(high), 6km/h (mid), 5km/h(low)
- Net Weight: 115 kgs
- Bearing weight: 100 kgs

How to operate

1. Right handle accelerator to start machine, left handle is brake.
2. There is also horn button and direction turning light and 4 head nightlight at steering wheels position.

Product Feature

1. Powerful motor offer great and exciting racing competition.
2. Shocking music is playing during riding.
3. Fit for 1 adult+1 kid family playing.
4. Fit for many playground,beach,grassland.

Off-road Fighting Vehicle

Product Parameter

- Size: 187*84*99 cm
- Battery: 12V/45AH * 2PCS
- Working time: 6-8 Hours
- Charging time: 8-10 Hours
- Net weight: 140 kg
- Bearing weight: 150 kg
- Player: 2 players
- Speed: <7km/h
- Power: 300 W
- Radar systems to protect players

Product Feature

1. Reinforced Fiberglass Material with Gold and Silver Power.
2. Dazzling Light and Dynamic Sound.
3. Cool Design.
4. Big Space Seat for Parent-kid Fun.
5. Ticket Price is 2X of 1 Seat Price.
6. Soft Leather Seat For Comfort Sitting;
7. Background Setting and Account Tracking.

How to operate

1. Power on the car and start by remote control.
2. Step on the accelerator to move, left foot pedal is brake.
3. Turn the steering wheel for changing direction.
4. Simulated gatling gun is for kid playing and bubble blowing.
5. Forward/Back switch button for easy backward riding.
6. Music in the whole playing. Voice reminder one minute before the end of the play.

Off-road Fighting Vehicle with Top Cover

Product Parameter

- Size: 199*98*162 cm
- Battery: 12V/45A * 2pcs
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 180 kg
- Bearing weight: 100 kg
- Player: 2 players
- Speed: 6km/h
- Power: 450 W
- Radar systems to protect players

Product Feature

1. Reinforced Fiberglass Material with Gold and Silver Power.
2. Dazzling Light and Dynamic Sound.
3. Cool Design.
4. Big Space Seat for Parent-kid Fun.
5. Ticket Price is 2X of 1 Seat Price.
6. Soft Leather Seat For Comfort Sitting.
7. Background Setting and Account Tracking.

How to operate

1. Power on the car and start by remote control.
2. Step on the accelerator to move, left foot pedal is brake.
3. Turn the steering wheel for changing direction.
4. Simulated gatling gun is for kid playing and bubble blowing.
5. Forward/Back switch button for easy backward riding.
6. Music in the whole playing. Voice reminder one minute before the end of the play.

Happy Family

Product Feature

1. Different models of cars catering for different kids interest.
2. Easy operation, release accelerator, machine stop to move.
3. Durable bottom with fence protection. Enlarged size, fit for 1 kid+1adult sit in.
4. Shining light, especially at night time. High reinforced glassfiber material.

How to play

1. By pressing machine number on remote controller, machine started to move.
2. After releasing the foot accelerator, machine will stop automatically.
3. If there is obstacle 0.5m from machine, machine will stop to move.
4. 3 levels speed adjustable.

Product Parameter

- Size: 145*125*172 cm
- Battery: 12V/45A * 2pcs
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 100 kg
- Bearing weight: 150 kg
- Player: 2 players
- Speed: 7km/h(high), 5km/h(mid), 4km/h(low)
- Power: 250 W
- Radar systems to protect players

Construction Family

Product Parameter

- Size: 170*101*171 cm
- Battery: 12V/45A * 2pcs
- Working time: 3-4 Hours
- Charging time: 8-10 Hours
- Net weight: 160 kg
- Bearing weight: 150 kg
- Player: 2 players
- Speed: 7km/h(high), 5.5km/h(mid), 4.5km/h(low)
- Power: 450 W
- Radar systems to protect players

How to operate

1. By pressing machine number on remote controller, machine started to move.
2. After releasing the foot accelerator, machine will stop automatically.
3. If there is obstacle 0.5m from machine, machine will stop to move.
4. 3 levels speed adjustable.

Product Feature

1. Patented unique design.
2. Different models of cars catering for different kids interest.
3. Easy operation, release accelerator, machine stop to move.
4. Durable bottom with fence protection.
5. Enlarged size, fit for 1 kid+1adult sit in.
6. Shining light, especially at night time.
7. High reinforced glassfiber material.

Animal Amusement Cars

Happy Duck Ride (with blowing bubble function)

Product Parameter

- Size:170*100*170cm
- Battery:12V/45A*4PCS
- Working time:5-6H
- Net weight:180kg
- Bearing weight:150kg
- Player:2
- Speed: ≤7km/h
- Power: 500W
- Radar systems to protect players

How to operate

1. This product is easy to operate, remote start can play, parent-child/couple/friend seat, enhance interactive experience, the entire play process has music and sound effects, lights flashing, fun safer.
2. Passengers control the machine through the steering wheel to move forward, back, turn and other operations. After releasing the accelerator, the car automatically brakes and stops, and the obstacles within 0.5 meters stop moving and other operations.
3. The co-pilot position can simulate small aircraft + sound effects.
4. Small aircraft right button spray bubble function, left button gun sound effect.

Labu Icecream Ride (with blowing bubble function)

Product Parameter

- Size:169*110*167cm
- Battery:12V/45A*4PCS
- Working time:5-6H
- Net weight:130kg
- Bearing weight:150kg
- Player:2
- Speed: $\leq 7\text{km/h}$
- Power: 500W
- Radar systems to protect players

How to operate

1. This product is easy to operate, remote start can play, parent-child/couple/friend seat, enhance interactive experience, the entire play process has music and sound effects, lights flashing, fun safer.
2. Passengers control the machine through the steering wheel to move forward, back, turn and other operations. After releasing the accelerator, the car automatically brakes and stops, and the obstacles within 0.5 meters stop moving and other operations.
3. The co-pilot position can simulate small aircraft + sound effects.
4. Small aircraft right button spray bubble function, left button gun sound effect.

Pika Battery Car (with blowing bubble function)

Product Parameter

- Size:170*111.4*105cm
- Battery:12V/45A*4PCS
- Working time:5-6H
- Net weight:150kg
- Bearing weight:150kg
- Player:2
- Speed: $\leq 7\text{km/h}$
- Power: 500W
- Radar systems to protect players

How to operate

1. This product is easy to operate, remote start can play, parent-child/couple/friend seat, enhance interactive experience, the entire play process has music and sound effects, lights flashing, fun safer.
2. Passengers control the machine through the steering wheel to move forward, back, turn and other operations. After releasing the accelerator, the car automatically brakes and stops, and the obstacles within 0.5 meters stop moving and other operations.
3. The co-pilot position can simulate small aircraft + sound effects.
4. Small aircraft right button spray bubble function, left button gun sound effect.

Magic Princess Car (with blowing bubble function)

Product Parameter

- Size: 165.9*108.4*98.9cm
- Battery: 12V/45AH*4PCS
- Working time: 5-6H
- Charging time: 8-10H
- Net weight: 150kg
- Bearing weight: 150kg
- Player: 2
- Speed: 7km/h(high)/ 5km/h (mid)/3km/h(low)
- Power: 500W
- Radar systems to protect players

How to operate

1. This product is easy to operate, remote start can play, parent-child/couple/friend seat, enhance interactive experience, the entire play process has music and sound effects, lights flashing, fun safer.
2. Passengers control the machine through the steering wheel to move forward, back, turn and other operations. After releasing the accelerator, the car automatically brakes and stops, and the obstacles within 0.5 meters stop moving and other operations.
3. The co-pilot position can simulate small aircraft + sound effects.
4. Small aircraft right button spray bubble function, left button gun sound effect.

NaiLong Meng Meng

Product Parameter

- Size:175*110*106cm
- Battery:12V/45AH*4PCS
- Working time:5-6H
- Charging time: 8-10H
- Net weight: 130kg
- Bearing weight:150kg
- Player:2
- Speed:≤7km/h
- Power:500W
- Radar systems to protect players

How to operate

1. This product is easy to operate, remote start can play, parent-child/couple/friend seat, enhance interactive experience, the entire play process has music and sound effects, lights flashing, fun safer.
2. Passengers control the machine through the steering wheel to move forward, back, turn and other operations. After releasing the accelerator, the car automatically brakes and stops, and the obstacles within 0.5 meters stop moving and other operations.
3. The co-pilot position can simulate small aircraft + sound effects.
4. Small aircraft right button spray bubble function, left button gun sound effect.

Nai Long Kai Kai (with blowing bubble function)

How to operate

1. This product is easy to operate, remote start can play, parent-child/couple/friend seat, enhance interactive experience, the entire play process has music and sound effects, lights flashing, fun safer.
2. Passengers control the machine through the steering wheel to move forward, back, turn and other operations. After releasing the accelerator, the car automatically brakes and stops, and the obstacles within 0.5 meters stop moving and other operations.
3. The co-pilot position can simulate small aircraft + sound effects.
4. Small aircraft right button spray bubble function, left button gun sound effect.

Product Feature

1. Milklong Nailoong is a genuine IP licensor with unique patented products.
2. Shocking stereo surround sound and dazzling LED horse flashing lights are more attractive to children.
3. Flexible operation, simple, convenient, free control direction, loose throttle automatic brake response in time.
4. Stable performance, smooth operation, start without jitter and delay, safe and reliable.
5. Double seat design, high strength FRP body.
6. Big factory production technology, strict quality management system, quality assurance.

Product Parameter

- Size: 183*105*110 cm
- Battery: 12V/45AH*4PCS
- Working time: 5-6Hours
- Charging time: 8-10Hours
- Net weight: 130kgs
- Bearing weight: 150kgs
- Player: 2 players
- Speed: ≤7km/h
- Power: 500W
- Radar systems to protect players

Nai Long KiKi (with blowing bubble function)

Product Parameter

- Size: 185*108*134cm
- Battery: 12V/45AH*4PCS
- Working time: 5-6Hours
- Charging time: 8-10Hours
- Net weight: 130kgs
- Bearing weight: 150kgs
- Player: 2 players
- Speed: ≤7km/h
- Power: 500W
- Radar systems to protect players

- Charging time: 8-10H
- Bearing weight: 150kg
- Player: 2 players
- Speed: ≤7km/h
- Power: 500W

Husky Cars

Product Parameter

- Size: L1850*W1080*H1340mm
- Net Weight: 150 kgs
- Bear Weight: 150 kgs
- Material: Hardware + FRP
- Battery: DC12V45A * 2PCS
- Working time: 5-6 hours
- Speed: 7km/h, 5km/h, 3km/h
- Configuration: Remote Control To Start / Bookkeeping Function / Background Settings / Radar Anti-Collision / Automatic demonstration function / Sound

Bull Swing Ride

How to operate

1. By pressing machine number on remote controller, machine started to move.
2. After releasing the foot accelerator, machine will stop automatically.
3. If there is obstacle 0.5m from machine, machine will stop to move.
4. 3 levels speed adjustable.

Product Feature

1. Patented unique design.
2. Shocking music and cool outlook.
3. easy operation, step on accelerator, machine start to move.
4. Durable bottom with rubber fence protection.
5. Enlarged size, fit for 1 kid+1adult sit on.
6. During movement,machine is swinging up and down,offers exciting riding experience.
7. High reinforced glassfiber material.
8. Seat with safety belt.

Product Parameter

- Size: 160*100*120 cm
- Battery:12V/45A * 2pcs
- Working time: 4-5 H
- Charging time: 8-10H
- Net weight: 150kg
- Bearing weight: 100kg
- Player: 2 players
- Speed: 7km/h(high), 4km/h(mid), 3km/h(low)
- Power: 700 W
- Radar systems to protect players

Golden Rooster Ride

(with blowing bubble function)

Product Parameter

- Size: 150*77*112 cm
- Battery: 12V/45A * 2pcs
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 100 kg
- Bearing weight: 100 kg
- Player: 2 players
- Speed: 7km/h(high), 5.5km/h (mid), 4km/h(low)
- Power: 300 W
- Radar systems to protect players

How to operate

1. By pressing machine number on remote controller, machine started to move.
2. After releasing the foot accelerator, machine will stop automatically.
3. If there is obstacle 0.5m from machine, machine will stop to move.
4. 3 levels speed adjustable.

Product Features

1. Patented unique design.
2. Shocking music and cool outlook.
3. Easy operation, step on accelerator, machine start to move.
4. Durable bottom with fence protection.
5. Enlarged size ,fit for 1 kid+1adult sit on.
6. High reinforced glassfiber material.
7. Applied a new type of glassfiber makes the whole body shining.
8. There is bubbles if pressing the button on steering wheels.

Naughty Cat

Product Feature

1. New creative animal appearance which caters to the children's interest very much, and has a good marketing effect.
2. Good anti-collision effect -- the machine have radar for safty and without the radar it can used as bumper car.
3. LCD screen display balance power, speed/music adjustment, working time setting.
4. Stable and smooth operation, non-delay action of accelerator starting.

How to operate

1. By operating steering wheels, the machine will go any direction, foot brake and accelerator.
2. Machine has front/back button so that it can backward riding easily.

Product Parameter

- Size: 145*78*88 cm
- Battery:12V/45A * 2pcs
- Working time: 5-7 Hours
- Charging time: 8-10 Hours
- Net weight: 85 kgs
- Bearing weight: 100 kgs
- Player: 2 players
- Speed: 6km/h(high), 5km/h(mid), 3km/h(low)
- Power: 250 W
- Radar systems to protect players

Adorable Mouse

How to operate

1. By operating steering wheels, the machine will go any direction, foot brake and accelerator.
2. Machine has front/back button so that it can backward riding easily.

Product Feature

1. New creative animal appearance designed by Huaqin in 2020, and the cute mouse shape comes from imitating the shape in Tom and Jerry, which caters to the children's interest very much, and has a good marketing effect.
2. Good anti-collision effect -- the machine have radar for safty and without the radar it can used as bumper car.
3. LCD screen display balance power, speed/music adjustment, working time setting.
4. Stable and smooth operation, non-delay action of accelerator starting.

Product Parameter

- Size: 145*78*88 cm
- Battery: 12V/45A * 2pcs
- Working time: 5-7 Hours
- Charging time: 8-10 Hours
- Net weight: 85 kgs
- Bearing weight: 100 kgs
- Player: 2 players
- Speed: 6km/h(high), 5km/h(mid), 3km/h(low)
- Power: 250 W
- Radar systems to protect players

Colorful Dragon ride (with blowing bubble function)

Product Parameter

- Size: 158*65*110 cm
- Battery: 12V/45A * 2pcs
- Working time: 6 Hours
- Charging time: 8-10 Hours
- Net weight: 60 kg
- Bearing weight: 100 kg
- Player: 2 players
- Speed: $\leq 7\text{KM/H}$
- Power: 250 W
- Radar systems to protect players

Product Feature

1. It can blow bubbles with unique patented design
2. Durable plastic shell with smooth surface treatment.
3. LCD screen display balance power, speed/music adjustment, working time setting.
4. Stable and smooth operation, non-delay action of accelerator starting.

How to operate

1. By operating steering wheels, the machine will go any direction, foot brake and accelerator.
2. Machine has front/back button so that it can backward riding easily.

Colorful Sea Horse (with blowing bubble function)

Product Parameter

- Size: 158*65*110 cm
- Battery: 12V/45A * 2pcs
- Working time: 6 Hours
- Charging time: 8-10 Hours
- Net weight: 60 kg
- Bearing weight: 100 kg
- Player: 2 players
- Speed: $\leq 7\text{KM/H}$
- Power: 250 W
- Radar systems to protect players

Product Feature

1. It can blow bubbles with unique patented design
2. Durable plastic shell with smooth surface treatment.
3. LCD screen display balance power, speed/music adjustment, working time setting.
4. Stable and smooth operation, non-delay action of accelerator starting.

How to operate

1. By operating steering wheels, the machine will go any direction, foot brake and accelerator.
2. Machine has front/back button so that it can backward riding easily.

Parent Kid Golden Deer Ride

Product Parameter

- Size: 149 * 78 * 150 cm
- Battery: 12V/45A * 2pcs
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 120 kg
- Bearing weight: 150 kg
- Player: 2 players
- Speed: 6km/h(high), 4.5km/h(mid), 3km/h(low)
- Power: 450W
- Radar systems to protect players

Product Features

1. Translucent fiberglass material, whole body light transmission effect.
2. Flashing lantern on the back and dynamic sound.
3. Front and rear radar, and a plastic bumper on the bottom for anti-collision.
4. Big space seat for parent-kid fun, ticket price is 2x of 1 seat price.
5. Soft leather seat for comfortable sitting.
6. Background setting and account tracking.

How to operate

1. Use the whole handle to direct.
2. The whole playing comes with music.
3. Power on the deer and start by remote control.
4. Forward/Back switch button for easy backward riding.
5. There is voice reminder one minute before the end of the play.
6. Twist right handle to accelerate the machine, release it, the machine stops automatically.
7. Deer sound effect when press the horn button. Machine stops when obstacles within 0.5 meters.

Cute Deer Swing Ride

(cute + swing version + 1 seat)

Product Parameter

- Size: 149 * 78 * 145 cm
- Battery: 12V/45A * 2pcs
- Working time: 4-5 Hours
- Charging time: 8-10 Hours
- Net weight: 85 kg
- Bearing weight: 114 kg
- Player: 1 player
- Speed: 6km/h(high), 4.5km/h(mid), 3km/h(low)
- Power: 250 W
- Radar systems to protect players

Product Features

1. Translucent fiberglass material, whole body light transmission effect.
2. Flashing lantern on the back and dynamic sound.
3. Front and rear radar, and a plastic bumper on the bottom for anti-collision.
4. Big space seat for parent-kid fun, ticket price is 2x of 1 seat price.
5. Soft leather seat for comfortable sitting.
6. Background setting and account tracking.

How to operate

1. Use the whole handle to direct.

3. Power on the deer and start by remote control.
4. Forward/Back switch button for easy backward riding.
5. There is voice reminder one minute before the end of the play.
6. Twist right handle to accelerate the machine, release it, the machine stops automatically.
7. Deer sound effect when press the horn button. Machine stops when obstacles within 0.5 meters.

Magic Deer Ride

Product Parameter

- Size: 242*115*100 cm
- Battery: 12V/45A * 2pcs
- Working time: 5-6 Hours
- Charging time: 8-12 Hours
- Net weight: 170 kg
- Bearing weight: 220 kg
- Player: 2 players
- Speed: 6km/h(high), 3.5km/h(mid), 2.4km/h(low)
- Power: 500 W
- Radar systems to protect players

Product Feature

1. Two seats for parent and kid.
2. Adjustable speed and time.
3. Independent light control.
4. Multiple music play.
5. Accounting function.

How to operate

1. Start by remote control, fasten your seatbelt, step on the pedal, operate your wheel.
2. It is recommended to play 5 minutes each time.

Magic Horse Ride

Product Parameter

- Size: 242*115*100cm
- Battery: 12V/45A * 2pcs
- Working time: 5-6 Hours
- Charging time: 8-12 Hours
- Net weight: 170 kg
- Bearing weight: 220 kg
- Player: 2 players
- Speed: 6km/h(high), 3.5km/h (mid), 2.4km/h(low)
- Power: 500 W
- Radar systems to protect players

Product Features

1. Unique patented design
2. Light is waterflow shining light
3. Stimulated horse riding sound effect during riding time.
4. Shocking music.
5. Sensitive direction turning control.

How to operate

1. Foot accelerator at right side to move machine, and left side foot brake to stop machine.
2. Front/back button for easy backward driving.

Trackless Trains

Nai Long Escort Little Train (with game screen and bubbles)

Introducing our new trackless train equipped with exciting gaming screens! Each carriage features a screen loaded with 6-9 engaging games. Passengers can enjoy the thrill of shooting with two guns per carriage, complete with two comfortable player seats. The guns are designed for dynamic action, moving up, down, left, and right. Product Parameter

- Head carriage size: 171.8*109.6*153.6cm
- Overall body size: 102.7*123.8*157.3cm *5
- Battery: 6V200A*8pcs
- Working time: 6-7H
- Charging time: 5-6H
- Net Weight: 1188kg
- Max bearing weight: 1000Kg per carriage
- Player: 10*2
- Speed: 5km/h
- Power: 3000W

Power Control

1. Power Transmission System -- Rear axle motor assembly operation.
2. Steering System -- Gear steering engine.
3. Rear Axle and Suspension -- Directional link pole, drive axle structure.
4. Braking System -- Pedal electronic brake device.
5. Tires -- Aluminum alloy wheels and vacuum rubber tires.

Trackless Swing Deer Ride

Product Parameter

- Size: 936*120*220 cm
- Battery: 48V/38A * 8pcs+ 48V / 120A * 4pcs
- Working time: 5-6 Hours
- Charging time: 8-10 Hours
- Net weight: 1200 kg
- Bearing weight: 1000 kg
- Player: 20 players
- Speed: 5 KM/H
- Power: 3000 W

24 Players Trackless Train

Product Feature

1. The appearance of the lights is colorful.
2. The whole equipment adopts full-automatic spray painting technology in dust-free workshop, with uniform and bright colors.
3. It is widely used in large comprehensive squares and scenic spots.
4. Stable performance, stable operation, no jitter and slow state during startup.

Product Parameter

- Head carriage size: 265*100*180 cm
- Passenger carriage size: 160*100*180cm
- Battery: 60V/110AH
- Working time: 10 Hours
- Charging time: 5-6 Hours
- Net Weight: 1080 kgs
- Max bearing weight: 500Kg per carriage
- Player: 24 players
- Speed: 20 km/H
- Power: 2000 W

Amusement Machines/Ride

Cotton Candy Maker Machine

Product Parameter

- Size: 130*80*180 cm
- Net weight: 225kg
- Operation time: 1 min
- Power: 800-2500W
- 18 kinds of languages
- Four flavours of sugar
- Accept payment by bill notes/coins/bank card

Product Feature

1. It is a highly profitable sweets vending machine. Offer delicious, fluffy cotton candy on location without the need for an attendant.
2. Attractive cabinet design. The user can watch the whole process from start to finish while dynamic music is playing.
3. Simple instructions are printed on the product.

Product Parameter

- Size: 900*900*350 cm
- Running Diameter: 9m (including fence)
- Voltage: 380V
- Height: 3.5m
- Power: 7KW
- Net weight: 2000kgs
- Rotation speed: 6/m
- Transport cubes: 50m³
- Player: 18 players
- Hydraulic: 10-15kgs

12 Seats Flying Chair

Icy flying chair is designed for kids,teenages playing with safety belt. Full machine is with colorful light,when players are sitting, machine is rotating and flying.

Product Feature

1. Rotating and flying design.
2. Smooth rotating without shaking.
3. Car painting on fiberglass keeps machine vivid, shining, fresh for long term usage.

Product Parameter

- Net Weight: 200kgs
- Player: 12 players
- Speed: 7 turns/min
- Power: 2.2KW

(6 seats)

6 Seats Parameter

- Size: $\Phi 230 \times H330$ cm
- Bearing weight: 340kgs
- Player: 6 players
- Power: 1500W

Product Feature

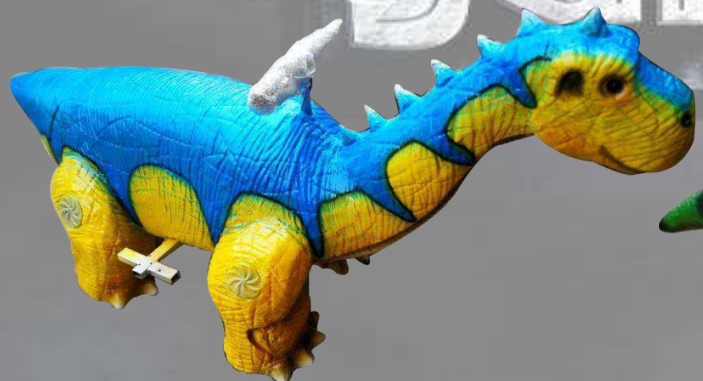

1. Luxury shining design,multi design choice.
2. Stable movement,long term life.
3. Emergency button for urgent stop.
4. Started mode can be remote control or coin system or card system for easy management.

Dinosaurs Amusement Ride

JURASSIC WORLD

Fit for shopping mall, amusement park, arcade centre. Surface is made of silicone and painted by simulated animal color. It is highly treated to copy animal skin. Stepping on foot accelerator to move machine.

Brachiosaurus Ride

- Size: Length 2.2 * Weight 0.6 * Height 1 m
- Bearing weight: 80kgs
- Battery: 16A/20A
- Working time: 5-6 Hours
- Starting: Remote control/Coin
- Motor: 30 W

Triceratops Ride

- Size: L2.2*W0.6*H0.8m
- Bearing weight: 80kgs
- Battery: 16A/20A
- Working time: 5-6 Hours
- Starting: Remote control/coin
- Motor: 30 W
